Having shade in the landscape presents many challenges to the homeowner. The homeowner can turn these challenges into opportunities and utilize an entirely new plant palette. These shade tolerant plants will add contrast, texture and sustain a landscape to be enjoyed for many years. Through a visual presentation, see many different shade loving plants in many landscape situations.

Jim is a retired York County Extension Agent and Senior Extension Agent Emeritus. He also can be heard answering gardening questions with Cathy Lewis on HearSay Public Radio, WHRV-FM, 89.5, on the third Thursday of the month from noon to 1 p.m.

Are Brits the best gardeners? Depends on which Brits! Dawn lived in the UK for over 5 years, gardening in the lovely English countryside among knowledgeable, everyday, "hands from the compost" gardeners. Learn from visits to iconic British gardens: Sissinghurst, Hampton Court Palace & the Chelsea Flower Show- as well as every-mans' gardens, what we call yards: NGS home collections of snowdrops or dahlias, the proud gardens of Rockingham Castle, Sandringham Estate or finally, the well kept grounds of top public schools. Inspirations from real world British gardens for us Yanks across the pond.
